Since October 2017, TSF has worked to improve migrants’ access to essential information.

The mission’s objective is to contribute to the migrants’ and refuge-seekers’ access to information by helping them understand the asylum procedures of their home countries.

In this context, the diffusion of relevant, reliable information in key locations along the migratory route is essential to meet the needs of migrants and contribute to their protection.

TSF worked with several organisations producing migration-related materials.

They worked in a new country, setting up key communication tools, measures, and administration.

The results of the evaluation in charge of the centres stress that the system is a good way of sharing the information.

The information has been adapted and personalized for each centre. The people in charge of the centres stress that the system is useful, it is like having a guide to help them make decisions about seeking humanitarian visas.

There are many Cubans seeking for information and news about Cuba.

There are many people who speak Spanish and have been living in the shelter for a long time.

In this context, the diffusion of relevant, reliable information in key locations along the migratory route is essential to meet the needs of migrants and contribute to their protection.

There are many people who speak Spanish and have been living in the shelter for a long time.

They say that the information serves them, they refer to what they have read. They say that the system is very important.

There are many people who speak Spanish and have been living in the shelter for a long time.
